

NADEESHA RUWANDIMA

SOFTWARE DEVELOPER

About Me

Trainee Software Developer with hands-on experience in web and mobile app development. Skilled in PHP, Java, JavaScript, and modern frameworks like React, Vue.js, Laravel, and Express. I've built real-world projects using MVC architecture, integrated Git for version control, and studied AWS best practices. Passionate about clean code, teamwork, and continuous learning. Completed a Diploma and Higher National Diploma in Software Engineering from NIBM

WORK EXPERIENCE

● Trainee Software Developer (Remote)

Toy Truck Proprietary Limited - Australia

May 2024 – Nov 2024

- Collaborated remotely with the Australian-based development team using Git & GitHub for version control.
- Studied and applied the AWS Well-Architected Framework to ensure application security and efficiency.
- Built a full-featured User Management System in PHP with CRUD operations and applied design patterns to enhance code reusability.
- Refactored the system using MVC architecture for improved maintainability and scalability.
- Assisted in the development of a React Native mobile app integrated with a custom PHP backend API.

EDUCATION

● BEng (Hons) in Software Engineering

London Metropolitan University

FOLLOWING

● Diploma in Software Engineering

National Institute of Business Management

(NIBM), Sri Lanka

2021 – 2022

● Higher National Diploma in Software Engineering

National Institute of Business Management

(NIBM), Sri Lanka

2022 – 2023

SOFT SKILLS

- Fast Learning
- Self-MoLeadership
- Collaboration
- Analytical Thinking
- Communication
- Adaptability
- Team Collaboration
- Problem-Solving
- Agile Methodology
- Technical Documentation

INTERESTS

- Coding
- Learning new programming languages
- Exploring new frameworks
- Practicing and improving skills

TECH SKILLS

- **Programming Languages:**
PHP, Java, JavaScript, Python, C++
- **Frameworks & Libraries:** React, Vue.js, Laravel, Spring Boot, React Native, Express.js, Flutter, Next.js, Angular
- **Database Management:**
MySQL, Firebase, MongoDB
- **Version Control:** Git, GitHub

PROJECTS

- **Animal Health Clinic Web Application**
Oct 2024 – Dec 2024
Created a clinic management website using Vue.js and Laravel.
 - Developed appointment booking and doctor profile features
 - Built backend logic and integrated MySQL database
 - Ensured responsive design and secure data handling**Tech:** Vue.js, Laravel, MySQL
- **Social Media Mobile Application**
Dec 2024 – Feb 2025
Built a cross-platform social media app using React Native and Express.js with MySQL integration.
 - Developed UI and core features (stories, follow/unfollow)
 - Implemented secure authentication and REST APIs
 - Integrated push notifications and optimized performance**Tech:** React Native, Express.js, MySQL, Axios
- **Chatting Web Application**
Mar 2025 – Jul 2025
Developed a real-time chat application with React and Express.js.
 - Built messaging system with conversation management
 - Implemented authentication, profile updates, and message controls
 - Designed responsive UI with optimized performance**Tech:** React Native, Express.js, MySQL, Axios
- **Frontend Web Developer – Inferno Creative Agency**
Apr 2026
Developed and deployed a professional business website for a creative agency using React
 - Built a responsive and modern user interface
 - Deployed the website using Vercel
 - Optimized performance and ensured cross-device compatibility
 - Delivered the project based on client requirements**Tech:** React, Vercel
